🧑 MALE

I see myself as a talented Nigerian freelance software developer with a passion for using Flutter and Dart to create innovative digital solutions. As an ambassador for HarperDb, a leading cloud database company, i have has honed skills in software development and i am well-versed in the latest industry trends. i have a strong track record of creating impactful software applications, and my open-source projects on Github demonstrates my commitment to creating value for clients and the broader developer community. Whether collaborating on team-based projects or working independently, i am a dependable and creative problem-solver who is dedicated to delivering high-quality results.

📁 Professional Experience
